If your organization needs to obtain a DUNS number, go to <http://fedgov.dnb.com/webform>. You can also search this site if you cannot find your agency's number. Under normal circumstances, a new account can be created in 24-72 hours. The federal government has published DUNS Frequently Asked Questions at <http://fedgov.dnb.com/webform/displayFAQPage.do>. Check with your agency's financial office before registering for a DUNS number - it is likely your agency already has one.

WEM cannot award grant funds until an active DUNS number is provided.

HMEP Operations for Firefighter 1 Certification Training 2016

Program Description

The WEM training program offers an extensive array of training opportunities for emergency managers, law enforcement, fire, EMS, public health, local officials and volunteer organizations. Wisconsin's Hazardous Materials courses are comprehensive and exceed national training standards in the field of Hazmat response training. Standards for the Hazmat training program are found both in CFR 29 and NFPA standard # 472. As of October 2014, all classes will be based on the NFPA 472 and tied directly to Job Performance Requirements (JPRs). JPRs are vital to the successful qualifying of an individual to a particular Professional Qualifications project standard. JPRs must be specific to indicate the attributes of successful performance on the job. The WTCS delivers the Hazardous Materials Operations Level training in its Firefighter 1 certification program, and this grant supports that training.
